COLOURMATCH

The Mitten Colour Match Concept

Mitten Siding & Accessories offer you the choice to match your Vinyl Siding colours with an extensive variety of complementary products.

Choose Colour Matched Trim, Shake, Blocks/Mounts/Vents, Caulking and Fasteners.

We even have colour matches on file with major paint manufacturers.

Have confidence knowing your home is going to look great with Colour Matched Mitten Siding and Accessories.

Visualization

Take the guesswork out of your exterior makeover, try different products and colour combinations. You can use one of our pre-masked photos, or upload and customize a photo of your own home.

Visit the **Mitten Visualizer** section of www.mittensiding.com or download the **Mitten Pro iPad App** (Search "Mitten Pro" for iPad only).

Sales Leads

Each month, tens of thousands visit our website. Homeowners searching for product information are directed to the "Where To Buy" contractor locator or they can click "Get an Estimate" to be connected with a member of the Mitten Team. By completing a short online form to detail their project, these homeowners quickly become pre-qualified sales leads.

Online Training

Continue to develop your skills and knowledge with Mitten Online Training. To be successful, everyone needs to have knowledge about the products they sell, install, service or support. Go to mittentraining.com or to our website at mittensiding.com

MITTEN® WEST RIDGE BUILDING PRODUCTS

The luxury **West Ridge Single 8"** plank has the timeless appearance of real wood with flat modern profile. Expertly designed with an impressively broad 8" single course width and a stack lock system, the West Ridge S8 plank offers a sleek, smooth and strong combination perfect for modern and contemporary designs.

The ridged foam backing provides added strength to an already thick .046" panel while still being lightweight and very easy to install.

Featuring 4 distinctive woodgrain finishes, 4 on trend solid colours and backed by a limited lifetime warranty, West Ridge is the pinnacle of vinyl siding designed to create luxury curb appeal.

Performance Features:

Ply Gem PVC Trim

PVC does not absorb water, so it won't rot, warp or split. PVC trim board can be cut, drilled and routed like wood. You can even install them to grade or against concrete.

Trim Boards

PVC trim board can be cut, drilled & routed like wood. These are also available as sheets (smooth/smooth or woodgrain/smooth) or as notched bead board. They can be used for fascia, frieze boards, window and door trim, deck edging, and decorative accents.

Mouldings

Mouldings are a long-lasting alternative to wood accent trim and are available in shapes that enhance any home's style, in gables around windows and doors, or wherever you desire. Drip Cap, Shingle Mould, Rams Crown, Bead Board, Inside Corner, Historic Sill and Brick Mould are all available.

Skirt Boards

PVC skirt boards provide the finishing touch without the worries of water damage. The sloped top drains water away from the house, making it the ideal border for fiber cement and other composite siding materials. Available in smooth or woodgrain.

Corners

One-piece outside corners provide a square edge with no unsightly, rough seams. Available in smooth or woodgrain finish.

Withstands the elements

WOOD

WOOD

Because Ply Gem trim does not absorb moisture, it won't rot, split or warp like wood. It also does not attract termites or other insects.

Won't split, crack or peel

FIBER CEMENT

PVC TRIM

PVC trim won't split or crack, and doesn't require sealing against moisture. It holds paint better and longer than wood, so you don't have to worry about paint peeling.

Easy to install

PVC TRIM

PVC TRIM

Notched corners make it easier to install and eliminates the need for a J-channel. It cuts and saws like wood, and can be installed in natural white or painted.

- Quick & easy installation on any surface
- Linear system adjustable to the nearest 1/4" (0.64 cm) to fit the exact length of your window
- Resistance to discolouration (UV rays)
- Virtually maintenance-free
- Extreme temperature variation resistance

Gable Vent Base installed with siding

Gable Vent Cap installed with siding

- Gable Vents are available in round, square, octagonal, half-round and rectangular sizes
- Ply Gem's two-piece gable vent system is fully compatible with all siding profiles
- Simply install a base when installing the siding, then snap on the cover later
- Rectangular bases, instead of round, make siding cuts easier
- Available in Mitten Standard & Premium vinyl siding colours
- Paintable version available
- Adjustable 5/8" - 1-1/4" for use with all siding styles

CODES/STANDARDS - Mitten Vinyl Siding conforms and/or surpasses certification standards in many countries.

CANADA
CAN/CGSB-41.24.95
CCMC Acceptance No. 06419L

UNITED STATES OF AMERICA
ASTM 3679
UBC Standard 14-2

AUSTRALIA
AS/NZ S4256 Type B

Warranty:

All Mitten Vinyl products are covered by a Lifetime Limited Warranty. See warranty or visit mittensiding.com for details and limitations.

NES Certification: Mitten has received confirmation by the National Evaluation Service, Inc. (NES) at nateval.org that its vinyl siding products comply with the exterior wall covering and wind resistance provisions of the three U.S. model building codes (BOCA National, ICBO Uniform and SBCCI Standard) in addition to the new 2000 International Building Code of the International Code Council. This confirmation, as evidenced in the NES evaluation report (NER-528), provides guidance to code officials faced with approving the use of Mitten vinyl siding under these codes.

VSI online at vinylsiding.org

Vinyl Siding Institute provides assurance to homeowners, remodelers, contractors, planners, code officials and architects regarding the quality of the vinyl siding they select and use. Vinyl siding, certified under the VSI Vinyl Siding Certification Program, has been independently verified by a third-party laboratory to meet or exceed ASTM D3679, the long-standing industry-wide standard for quality vinyl siding.

VSI Certified Siding Installer Program

VSI Certified Installer Program provides training and certification for vinyl siding installers and companies. For more information please visit vinylsiding.org.
